Correction sheet for PhD thesis “Evaluation of Aeolus wind observations and their contribution to surface wind forecasts”

Author: Haichen Zuo

Only corrections for meaningful errors are listed below.

Location	Text in thesis	Correction
Page 22, paragraph 2, line 3-5	“Moreover, wind component forecasts at a height of 10 m with a 24-h time interval were used to evaluate the medium-range forecasts for both ocean and high-latitude regions.”	“Moreover, wind component forecasts at the height of 10 m with a 12-h time interval were used to evaluate the medium-range forecasts for global ocean regions and a 24-h time interval for tropical ocean and high-latitude regions.”
Page 47, paragraph 1, line 8	“the negative MBE is balanced with the positive MBE”	“the negative MBE is balanced with the positive DMBE”
Page 49-50, the caption of Figure 5.6	The explanation for N in Figure 5.6 is missing.	Should add “Each scatter is colored by density, denoted by N.”
