‘Translating lessons learnt, from financing of small and middle sized forest projects, into national REDD-plus strategy development and implementation’

Lea Ravnkilde Møller; cand. silv.
leam@risoe.dtu.dk
Energy and Carbon Finance,
UNEP Risø Centre

UN-REDD
PROGRAMME

The special setup of URC

- Integrated part of UNEP DTIE Paris
- Core research budget
- 35+ economist and scientist from 17 different nations.
- Access to a broad range of energy scientists and specialists at Risø DTU.
- A wide network of collaborating institutions, NGO's and partners in 50 to 60 developing countries.
- A non profit public institution with high demands to procedures, transparency and accounting.

Translating lessons learnt from forest carbon projects.....

- Project life cycle (needs, cost and returns)
- What are the incentives to invest in these projects
- What are the barriers for the projects
- What are the setup for the projects

- Success factors
- How can these lessons learnt be used in the implementation and development of national REDD-plus strategy

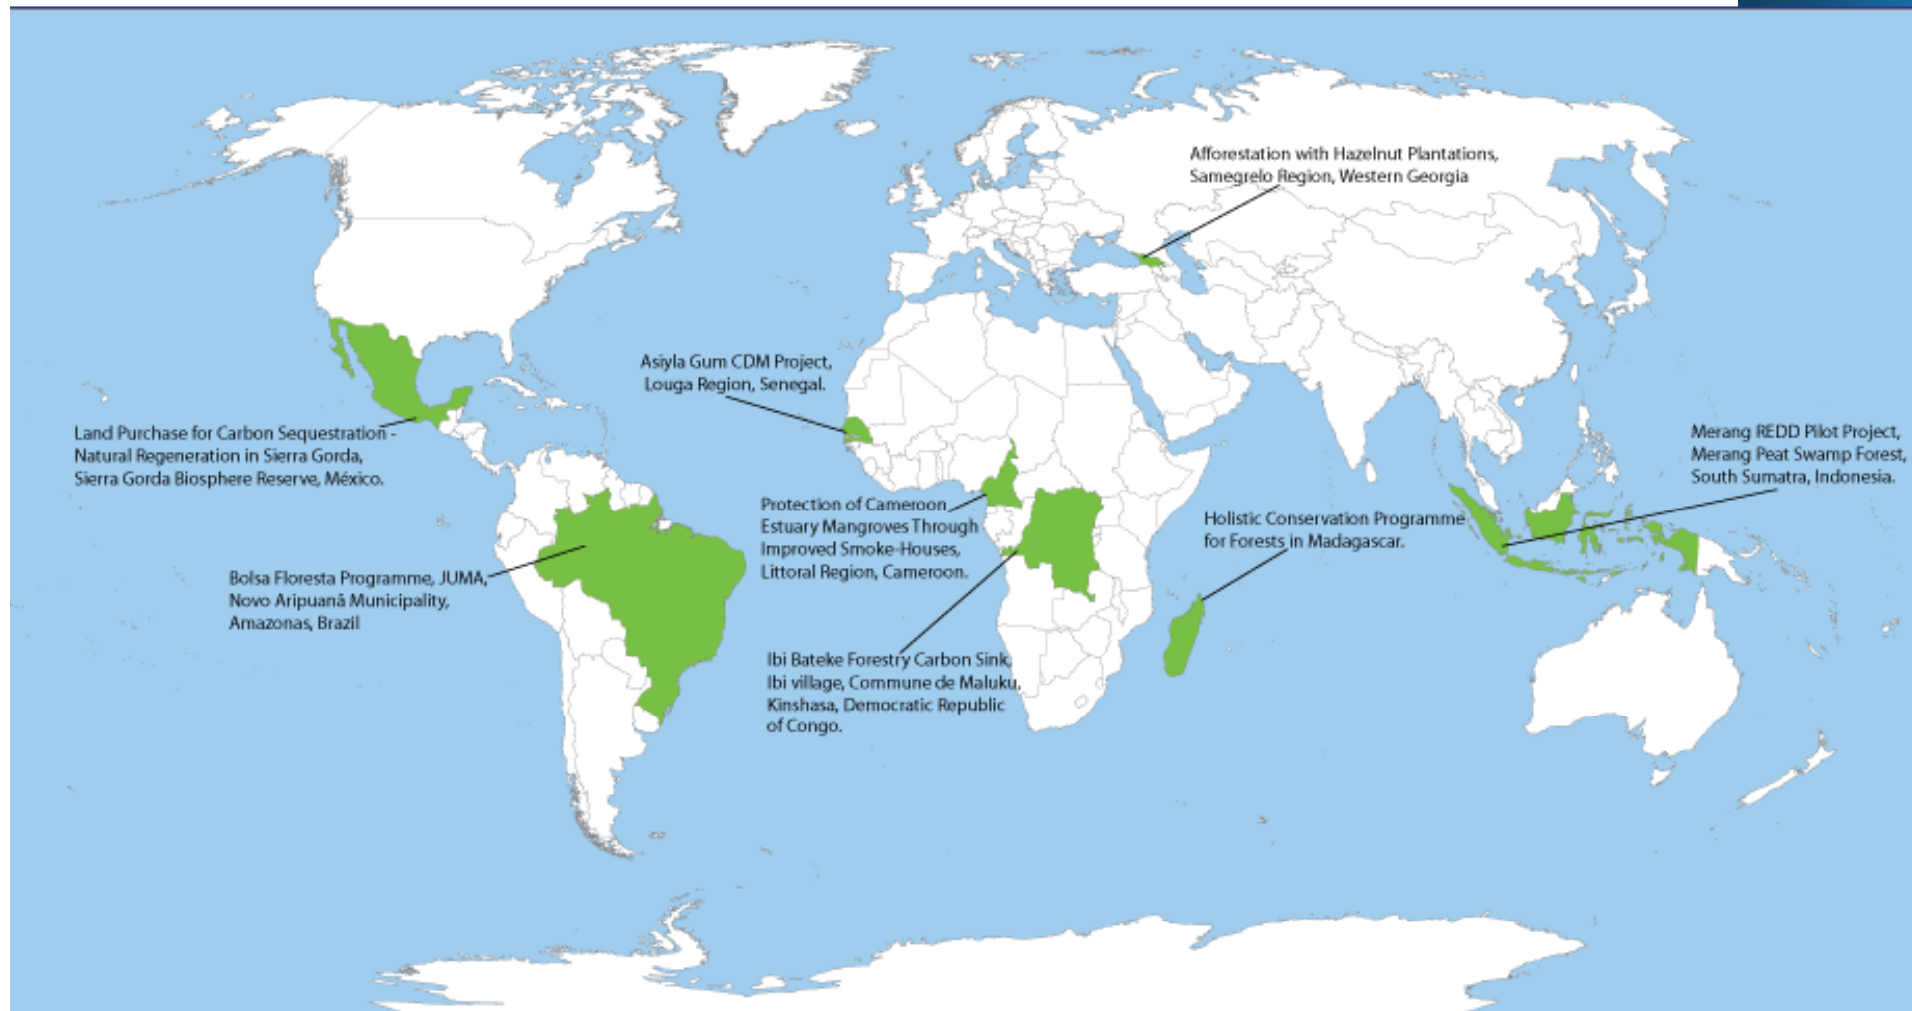

Approach to engage projects to participate in our research...

- **Contact established to +50 projects world wide**
- Letter of motivation
- **Survey...**
 - Finance type
 - Stakeholder engagement
 - Activities and technologies
- Selection of 8 projects, where lessons can be subtracted....
- **in-depth survey...**
 - Basic project information
 - Methodology and Standards
 - Finance
 - Financial partners; planning, implementation and operational costs
 - possible income sources and revenues
 - Institutional and Financial Arrangements
 - Main Barriers for the Projects
 - Sustainable Development Impacts

Location of the projects

Sections in the Technical Report

1. Background and Introduction.
2. Introduction of case projects.
3. **Section A:** The institutional arrangements.
4. **Section B:** Financing of the Case Projects.
5. **Section C:** The contribution of REDD+ projects to sustainable development.
6. Conclusions and the way forward.....

Key messages coming from the projects – Institutional Framework

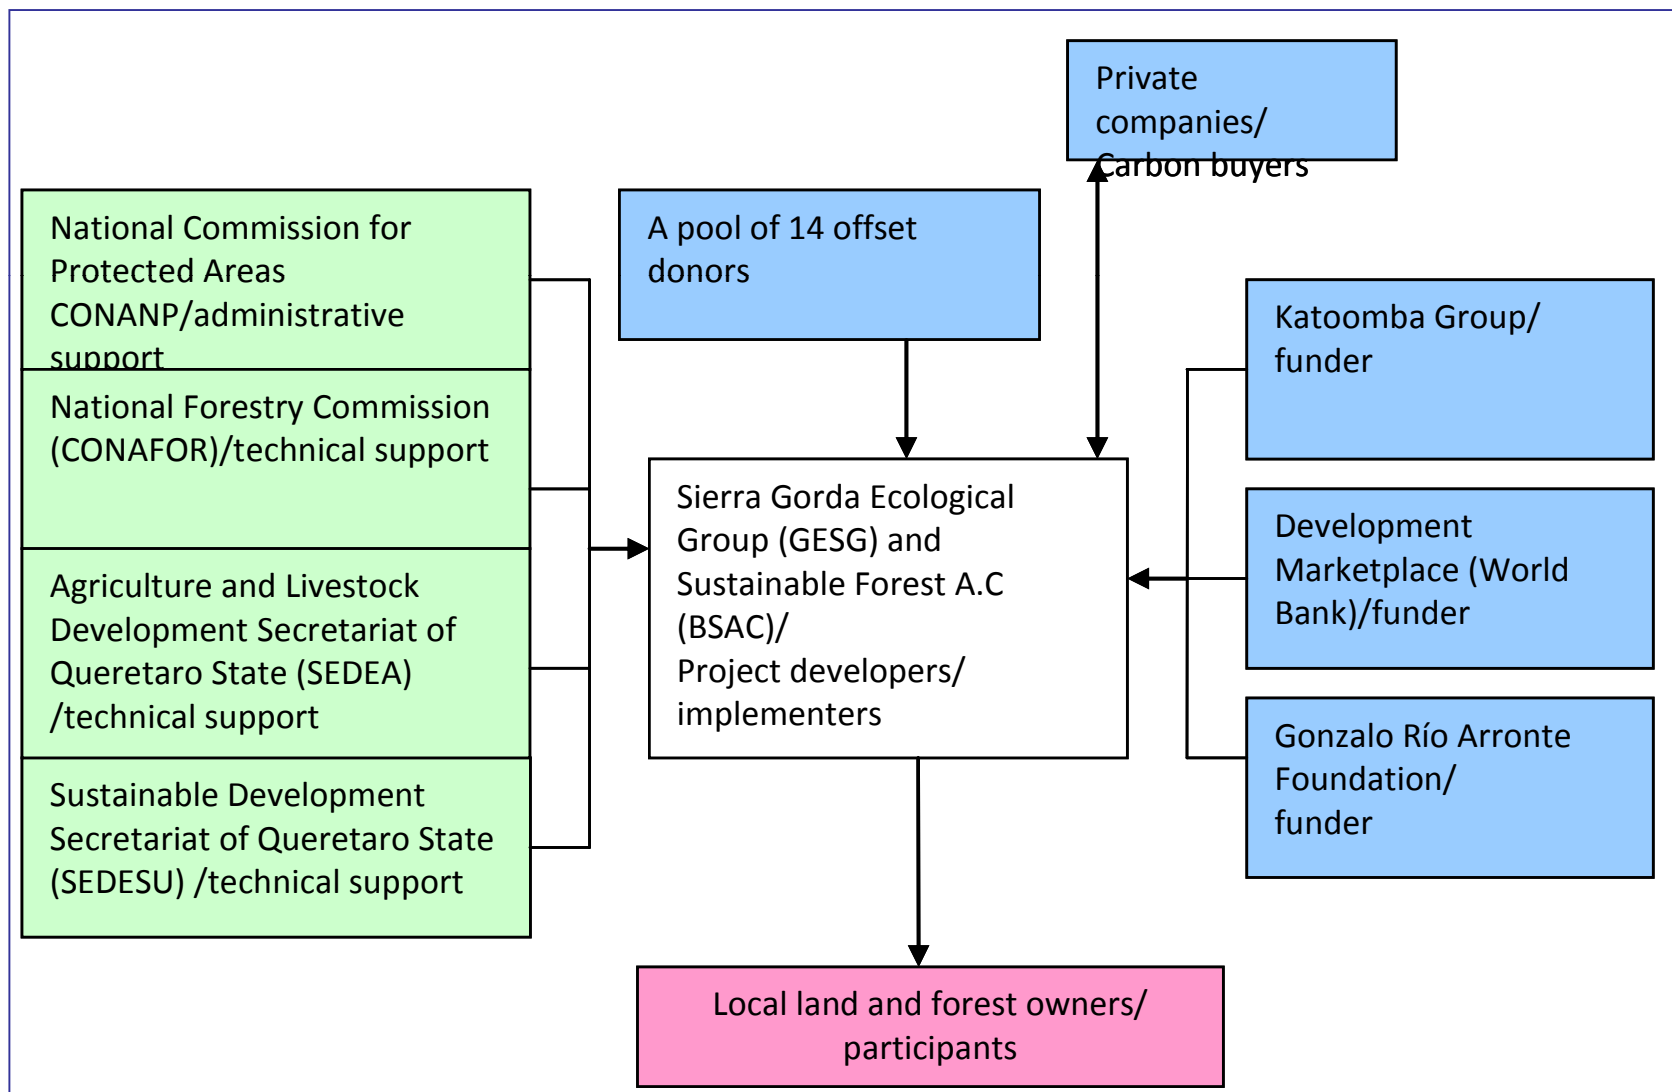

Afforestation with Hazelnut Plantation in Western Georgia

Key messages coming from the projects – Institutional Framework

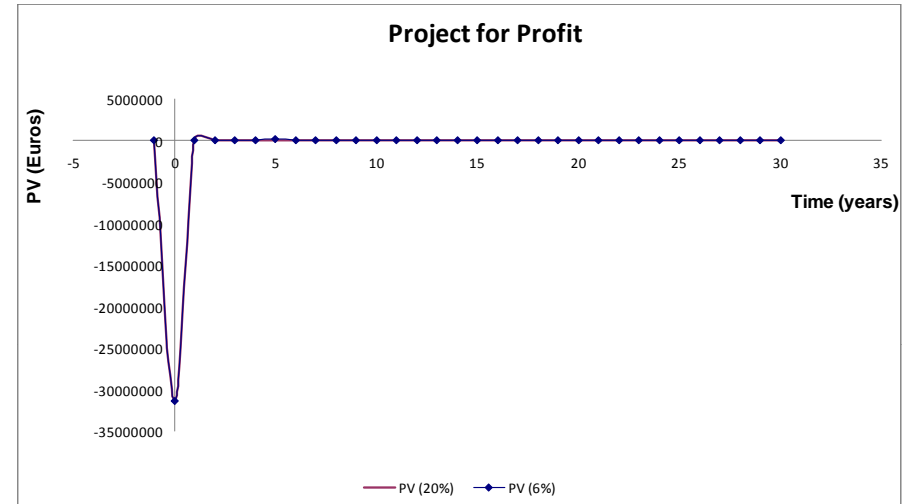

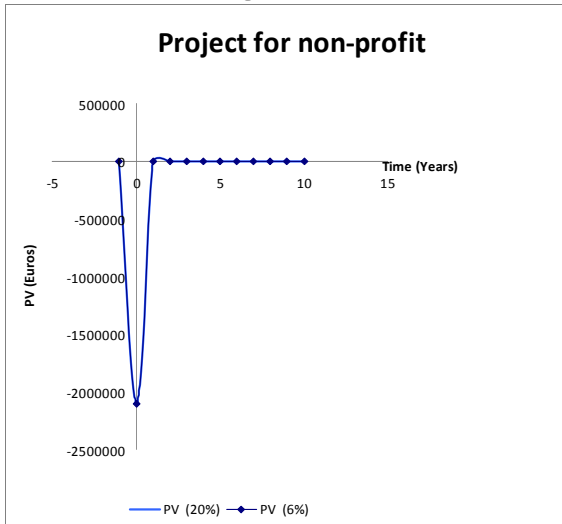

Land Purchase for Carbon Sequestration - Natural Regeneration in Sierra Gorda, Mexico

Financial Section - Cumulative Cash Flow Present Values (PV) in Euros

-including initial investment

-ignoring initial investment

Key messages coming from the projects.....

- Local connection and engagement
- Create development activities outside the forest, that takes the drivers out of the forest
- Institutional arrangements → are different and varies from the type of the project.
- The focus is on REDD activities and project feasibility.
- Implementation costs

Picture from the project: Land Purchase for Carbon Sequestration - Natural Regeneration in Sierra Gorda, Mexico.

Carbon Market Perspectives

- 2011 - Progressing towards post-2012 carbon markets... (ready fall 2011)
 - **2010 – Pathways for Implementing REDD+**
 - 2009 – NAMAs and the Carbon Market
 - 2008 – A Reformed CDM
 - 2007 – Determining a Fair Price on Carbon
